

## Group Health Administration

### USS914e Group Health Administration System

The United Systems and Software, Inc. (USSI), Group Health Administration System (USS914e), is designed to meet the administrative requirements found in most group health providers, including third party administrators (TPA's) and self-insured companies who choose to administer their own group health programs. USS914e supports a wide variety of insurance products, from traditional indemnity plans and point of service plans, to HMO's.

The USS914e family of integrated systems include:

- Enrollment
- HIPAA Support
- ID Cards
- COBRA Requirements
- Extensive Billing Features
- Accounts Receivable
- Agent Commissions
- Claims Adjudication
- Provider Networks
- Pre-Certifications and Referrals
- General Ledger
- A/P
- Extensive Reporting
- Document Imaging and Internet Support

USS914e uses a relational database, providing great flexibility when addressing new requirements and responding to management requests for information. The database may be accessed by a wide variety of reporting and data mining tools.
